**Subject:** FW: Unregistered Swimming Pool Pesticide Products

I'm forwarding a message from a person at the American Chemistry Council, a trade association for the chlorine world. I talked to this person today and she is saying that she met w/OPP and James Miles on this issue and they agreed that there are some compliance issues. I asked her to send a summary email of her conversation w/these folks. I'll forward when I receive it. In this email and attached letter she provides more info on possible registration and/or misbranding compliance issues. I'd like to ask you to please follow up on this possible issue. (b) (5)

**Subject:** Unregistered Swimming Pool Pesticide Products

Dear Mr. Rodriguez,  
Thank you for returning my call on Friday, Dec. 18. You asked me for further information on unregistered mineral ionizer sanitizers in EPA Region 9, which is supplied here.

The attached letter was sent to US EPA Office of Enforcement and Compliance Assurance (OECA) headquarters on Dec. 17, 2014, describing the issue. The American Chemistry Council (ACC) staff and two of our members met with Mr. James Miles and others from both OECA and the Office of Pesticide Programs on Sept. 1, 2015. At that time we learned that the information on unregistered products would be sent on to the appropriate regional offices for further action.

This email is to ask you if there has been any progress in your office in addressing these marketers, which still appear to be unregistered:

Campbell Environmental Systems  
520 Washington Blvd. #607  
Marina Del Rey, CA 90292  
310-822-4188

Triden Pools  
3075 E Thousand Oaks Blvd
